Date of birth: 3 April 1983

RESEARCH INTERESTS

I have broad interests in management accounting, particularly corporate management control and financial markets. More specifically, I am interested in interaction within the relationship between institutional equity investors and companies. With a particular interest in the everyday processes that create and uphold seemingly stable relationships and structures.

EDUCATION

- 2010 – present** **PhD Student in Business Administration, Stockholm School of Economics, Department of Accounting**
Main Supervisor: Johnny Lind, Professor of management accounting.
Completed PhD Courses: Philosophy of science, Perspectives on science and research, Qualitative methods, Quality of statistical data, EDEN Doctoral seminar on case-based research in management accounting, Qualitative research and case study research in accounting, Accounting in inter-organizational relationships and networks, Accounting classics.
